

Compliance & Documentation Integration for Aerospace

Automate document flow. Ensure compliance. Remove critical risk.

Streamlined document management system

- OEM-compliant manuals
- Up to 90% faster revisions

One fully integrated compliance and documentation ecosystem

Compliance & safety management platform

- Regulatory intelligence
- Automated workflows

✓ single source of truth ✓ audit-ready compliance ✓ real-time synchronization ✓ cross-linking

What is the connector?

The Orlando-AMAS.aero connector is a secure API that enables automated, revision-safe synchronization of approved documents into compliance and safety workflows.

What's included?

- ✓ Orlando ↔ AMAS.aero connector (API)
- ✓ AMAS.aero apps
Standards & Regulations, InSight, Obligations
- ✓ Five primary users
- ✓ System setup & onboarding
- ✓ EASA AOC regulatory library
Air Operations, Part-M, CAMO, ARO, ORO, CAT, SPA, OPS 1 Subpart Q, CS FTL.1, Part 26, CS-FSTD (H/A), SERA, AUR.ACAS, AUR.PBN, Occurrence Reporting
- ✓ IOSA standard library
CAB, CGO, DSP, FLT, GRH, MNT, ORG, SEC

Key benefits

- ✓ Document cross-referencing
- ✓ Audit & revision compliance
- ✓ Reduced manual effort
- ✓ Consistent, synchronized data
- ✓ Faster compliance processes
- ✓ Reduced operational risk
- ✓ Time & cost savings
- ✓ Scalable & future-proof

Eliminate manual document handling and ensure audit ready compliance at all times

How the integration works

secure authentication

automated data flow

intelligent data transformation

real-time sync

full traceability
